

Request for Proposals

El Dorado County Air Quality Management District

Motor Vehicle Emission Reduction Projects CY 2024 & 2025

Background

In 1990, Assembly Bill 2766 (AB 2766) was adopted into the California Health and Safety Code. AB 2766 authorized the Department of Motor Vehicles (DMV) to collect a motor vehicle registration clean air surcharge of \$4 per vehicle. Revenues generated from the surcharge are utilized by the Air Quality Management District (AQMD) for grant programs that reduce air pollution from motor vehicles in order to implement the California Clean Air Act and internal operations. Grant programs include alternative fueled vehicles, electric vehicle infrastructure, shuttles, park and ride facilities, bike trails, dirt road paving and others. Internal operations include planning, monitoring, enforcement and technical studies.

Purpose

This is a competitive grant program with the sole purpose of improving air quality. The AQMD's goal is to identify projects that reduce motor vehicle emissions at the lowest cost per ton of emissions reduced. Project information and cost-effectiveness rankings will be presented to the El Dorado County (EDC) AQMD Board of Directors for award consideration. Grants funds are to subsidize emission reduction projects, not supplant existing normal operating expenses.

Grant Funding

Approximately \$850,000 will be available for the two-year grant term, contingent upon Board of Directors approval. The Board of Directors reserves the right to approve proposals, reject proposals, or fund amounts less than the amounts requested.

Matching Funds

Match must be at least 20% of requested and awarded funding or at least 16.66% of total project budget identified in the application.

Example: \$50,000 requested/awarded will require at least \$10,000 in match.

$\$50,000 \times 20\% = \$10,000$

$\$10,000/\$60,000 = 16.66\%$

All applicants must contribute minimum matching funds equal to or greater than 20% of the grant amount requested. The Match Share requirement must be fulfilled after receiving the Notice to Proceed and throughout the grant term. The Match Share may be monetary and/or in-kind (non-dollar) contributions. Volunteer services are acceptable in-kind contributions and will be valued as the number of volunteer hours at the current State of California minimum hourly wage rate, or other appropriate rate if identified in the subsequent agreement. Other non-dollar contributions will be considered. The Match Share must be actual cost to the grant applicant of matching services.

Applicant Eligibility

El Dorado County jurisdictions including: cities, special districts, other political subdivisions and jurisdictions joined together by JPAs or MOUs, private companies, private individuals and non-profit organizations are eligible to apply for these grants. Applicants may jointly submit regional project applications.

Eligible Project Examples (Other projects that reduce motor vehicle emissions are also encouraged)

Alternative Fuel Vehicle Infrastructure

1. Electric Vehicle Supply Equipment (EVSE) installation and upgrade.
2. Alternative gas or liquid fuel equipment installation and upgrade.

Public Education

The California Clean Air Act requires districts include a public education element in their attainment plans. Public education programs should deliver a focused message encouraging behavioral changes that reduce motor vehicle emissions. Project examples include:

1. Development/distribution of educational materials on how residents can improve air quality.
2. Development and distribution of educational materials to at-risk populations on the health impacts of poor air quality and how to avoid them.
3. Air quality curriculum development and implementation in school districts.

Vehicle Miles Traveled (VMT) Reduction

Projects to reduce motor vehicle trips by providing alternative methods of travel. Examples of these projects include:

1. Videoconferencing systems that reduce the vehicle trips of the public to public facilities.
2. Construction of public park and ride facilities.
3. Subsidies for new commuter vanpools.
4. Construction of bike paths that serve schools or employment centers.
5. Shuttle services.

Vehicle Retrofit and Replacement

Projects that reduce mobile source tail pipe emissions by retrofit or replacement of vehicles and engines with eligible, new (2023 model or later) vehicles and engines, and related fueling infrastructure. Replaced vehicles and engines must be scrapped. Applications for vehicle replacement projects eligible for Carl Moyer funding may be redirected to the Carl Moyer program. Examples of these projects include:

1. Replacement of old light-duty motor vehicles (8500 lbs. or less) with a new light-duty electric, hybrid, alternative fuel or other low emitting vehicle that meets the zero-emission vehicle (ZEV), alternative technology partial zero emission vehicle (ATPZEV), or partial zero emission vehicles (PZEV) standard.
2. Replacement of old medium-duty (8501 lbs – 14,000 lbs.) vehicles with new low emitting medium-duty vehicle that meets the ZEV or super low emission vehicles (SULEV) standard.
3. Replacement of an old heavy-duty vehicle (14,001 lbs or greater) with a low emission alternative fuel vehicle (AFV) of the same class.
4. Replacement of an old high emitting engine in a heavy-duty vehicle with a new alternative fueled low emitting engine.

5. Liquefied and compressed natural gas or electric vehicle infrastructure projects

Eligible Costs

Eligible costs are direct costs associated with implementing the project, which are incurred after receiving the Notice to Proceed and by the end of the grant term. AQMD reserves the right to make final determinations regarding cost eligibility for each project.

Ineligible Costs

Any costs not directly related to the project are ineligible for grant or matching funds. Ineligible costs using grant or matching funds including, but are not limited to:

- Costs not specifically identified in the Proposal, unless approved in writing by the Air Pollution Control Officer (APCO) prior to costs being incurred;
- Costs covered by another government grant, contract or loan;
- Expenses incurred for meetings, workshops, training not associated with the project;
- Personnel travel or per diem costs, unless approved in writing by the APCO prior to the costs being incurred;
- Food or beverages;

- Any personnel costs not directly related to salaries and/or benefits;
- Any personnel costs incurred as a result of any employee assigned to the project funded by the grant while not actually working on the project (i.e., working on other tasks, use of accrued sick leave, vacation, etc.)
- Any costs not consistent with local, state, and federal guidelines and regulations;
- Interest charges or payments on bonds or indebtedness required to finance project costs;
- Fines or penalties due to violation of federal, state or local laws, ordinances or regulations;
- Cameras, cell phones, electronic personal data devices and/or pagers;
- Costs connected with contractor claims against the grantee; and
- Any costs not deemed appropriate by the APCO.

Audit Requirements

All grantees are required to comply with the following:

1. Audit/Records Access: Grantees agree that AQMD, EDC Auditor, California Air Resources Board, Bureau of State Audits, or their designated representative(s) shall have the right to review and copy any records and supporting documentation pertaining to contract performance. Grantees agree to maintain such records for a minimum of three years after final payment, unless a longer period of records retention is stipulated, or until completion of any action and resolution of all issues which may arise as a result of any litigation, dispute or audit, whichever is later. Grantees agree to allow designated representative(s) access to such records during normal business hours and allow interviews of any employees who might reasonably have information related to such records. Further, grantees agree to include a similar right to audit records and interview staff in any contract or subcontract related to contract performance.

2. **Personal Jurisdiction Waiver:** If as a result of an audit finding, AQMD seeks reimbursement of costs paid to a grantee, the grantee hereby waives any jurisdictional defenses as a defense to any action in any court of the State of California for recovery of such funds.

Payment of Grant Funds

Grant funds are paid on a reimbursement basis for the actual eligible costs directly related to the implementation of the project as approved in the Contract. All payment requests must include an itemization with documentation of claimed expenses (e.g., itemized receipts, proof of payment invoices, billable personnel hours, etc.).

A minimum of ten percent (10%) of documented expenses on each payment request must be applied to the match requirement. The AQMD shall not under any circumstances reimburse Contractor for commitments made by Contractor for services not performed or materials not received.

Reporting Requirements

The AB 2766 grant is performance based. Periodic performance reports are required to ensure projects are on schedule and within parameters approved by AQMD. A final report summarizing all grant activities is due February 28, 2026.

Grant Term

The grant term is from the Notice to Proceed date through December 31, 2023. Term may be shortened if all project activities will be completed well in advance of December 31, 2023. All costs must be incurred during this term. The final payment request is due February 28, 2024. Failure to submit final payment request and final report with appropriate documentation by the due date will result in Payment Request rejection and forfeiture of claims for costs incurred.

Required data may include time of operation, ridership and vehicle miles traveled. Projects should be designed to achieve the maximum emission reduction at the lowest cost.

Cost Effectiveness - 90 Points

Cost effectiveness will be determined for total project costs (total of grant funds and matching funds):

<u>Points</u>	<u>\$/Pound of Motor Vehicle Pollutants</u>
90	\$0 - 10/lb.
80	\$10 - 25/lb.
70	\$25 - 50/lb.
60	\$50 - 75/lb.
50	\$75 - 125/lb.
40	\$125 - 200/lb.
30	\$200 - 400/lb.
20	\$400 - 999/lb
10	>\$1000/lb

Preferred Projects – 10 Points

Points are awarded for projects having benefits in addition to motor vehicle emissions reduction. Additional benefits include reduction of non motor vehicle emissions, such as burning, and projects that improve quality of life for EDC residents. Projects with additional benefits are:

- Projects that include new technology demonstration and introduction
- Enhanced Transit/Shuttle Service Projects
- Biomass Transport Reduction

If two or more projects receive the same score, priority will be given to the lowest cost project.

In the event said insurance coverage expires at any time or times during the term of this Agreement, GRANTEE agrees to provide at least thirty (30) days prior to said expiration date, a new certificate of insurance evidencing insurance coverage as provided for herein for not less than the remainder of the term of the Agreement, or for a period of not less than one (1) year. New certificates of insurance are subject to the approval of the County of El Dorado's Risk Management Division and GRANTEE agrees that no work or services shall be performed prior to the giving of such approval.
