**General Instructions For Completing
2022 Calendar Year THROUGHPUT/PRODUCTION**

Reports are due by April 28, 2023

A separate Throughput Report is required for each permit to operate. Ensure that the reported usage corresponds to the correct permit number. The form must be completed each calendar year whether the permitted equipment is used or not. This information is necessary to track emission inventory within the District.

Report your ACTUAL usage, not your maximum throughput limit(s) listed on the permit. Email the completed report on **page 2** to aqmd@edcgov.us to receive a confirmation of receipt. We also accept faxes at (530) 295-2774, mail or hand delivery.

1. **REPORT YEAR** - Print the report year, for example, 2022 is the report year for the 2023 submittal.
2. **COMPANY NAME** - Print the complete name of the company. The company name placed on the Throughput Report must match the company name listed on the permit.
3. **SITE ADDRESS** - Print the street address where the equipment is located.
4. **PERMIT TO OPERATE #** - You can find this number located on the first page of the permit. The number will look like Permit to Operate # XX-XXXX.
5. **PROCESS DESCRIPTION** - Print the process description as listed on the first page of the permit (e.g., automotive refinishing, woodwork finishing etc.).
6. **RESPONSIBLE PERSON** - Print the name of the person responsible for the permitted operation.
7. **TITLE** - Print the title of the responsible person listed.
8. **E-MAIL ADDRESS** - Print the e-mail address of the responsible person listed.
9. **PHONE NUMBER** - Print the area code and phone number of the responsible person listed.
10. **ACTUAL PERMITTED PROCESS THROUGHPUT** - Report the **ACTUAL** throughput. Please refer to your permit for information about specific equipment process unit (e.g., solvent usage, hourly limit, etc.), If the permit has quarterly limits, the actual quarterly usage must be reported.
11. **FUEL USAGE** - If a facility has **permitted** boilers/water heaters, report the total fuel usage of propane or natural gas fuel.

Please contact Cory Gutierrez, Air Quality Engineer, at (530) 621-7571 or email: cory.gutierrez@edcgov.us for general questions.
