**Dave Johnston
Air Pollution Control Officer**

COMPLETION OF CONSTRUCTION NOTIFICATION

The Authority to Construct (AC) is valid until your equipment is operational or the AC expires, whichever occurs first. The AC you were issued is **not** a final Permit to Operate (PO) even though they share the same file number.

Please fill out the following information and submit to the District **upon completion of equipment construction and within (7) days of initial operation**. This notifies the District that the equipment is ready for inspection. The District will contact you to schedule an inspection.

The first annual permit fees must be paid in full for the District to issue you a permit.
