

**COUNTY OF EL DORADO, CALIFORNIA
BOARD OF SUPERVISORS POLICY**

Subject: EMERGENCY MANAGEMENT POLICY	Policy Number K-3	Page Number: 1 of 7
	Date Adopted: 04/29/2003	Revised Date:

BACKGROUND:

An emergency is an unplanned event that can cause significant injuries or death to employees or the public, can disrupt or shut down operations, cause physical or environmental damage, or threaten the County's financial resources. Emergency Management is the process of preparing for, mitigating, responding to, and recovering from an emergency.

The purpose of this policy is to ensure that El Dorado County government departments: prepare for and respond effectively to an emergency situation through the appropriate use of County and community resources; provide a framework for enhancing the safety and security of its employees and operations; and plan for a mechanism to continue to provide County Governmental services during and after an emergency. It is intended to cover, but is not limited to, managing and responding to the following: disaster – fire, flood, hazardous material spill, severe storm, earthquake, communication failure, power outage, explosion, act of terrorism, or civil disturbance; medical emergency – serious injury or fatality, epidemic or poisoning; major violence – murder, suicide kidnapping, hostage-taking, or workplace violence resulting in bodily harm or trauma; and bomb threat.

This Policy is not to be confused with the emergency plans that exist and are prepared by the County Sheriff Office of Emergency Services which have a broader scope encompassing the entire County.

Occupants of County facilities who are not departments of the County are strongly encouraged to participate in the El Dorado County Emergency Management Policy and plans.
