

RESOLUTION NO. 022-2021

OF THE BOARD OF SUPERVISORS OF THE COUNTY OF EL DORADO

RESOLUTION INCREASING DEVELOPMENT IMPACT FEES

ON BEHALF OF

EL DORADO HILLS COMMUNITY SERVICES DISTRICT

WHEREAS, AB 1600 was passed and codified in California Government Code Sections 66000-66025 (“Mitigation Fee Act”) allowing the establishment of a development impact fee as a condition of approval where the purpose and use of the fee are identified and a reasonable relationship to the development project can be demonstrated; and

WHEREAS, the County of El Dorado has adopted Ordinance No. 5057, codified in Chapter 13, Section 20 of the El Dorado County Code authorizing the establishment of a development impact fee collected on behalf of a special district upon the issuance of all building permits for development within the special district in order to fund the construction or purchase of public facilities and equipment necessary to mitigate the impacts of such development on the district’s ability to provide public services; and

WHEREAS, the Board of Supervisors has previously established fees within the boundaries of the El Dorado Hills Community Services District (“District”), for the purpose of funding the construction or purchase of parks and recreation facilities and equipment necessary to mitigate the impacts of new development on the District’s ability to provide parks and recreation services within the District, and the previously-established fees are documented by Resolution 135-2018 adopted July 17, 2018; and

WHEREAS, such fees were based on a Fee Nexus Study and Report (“Report”) detailing the legal and policy basis for increasing the development impact mitigation fee within the District; and

WHEREAS, on July 9, 2020, the District adopted Resolution No. 2020-16, adopting an increase to the fees by 3.3%, based on the change in the Consumer Price Index for calendar year 2019, and requesting the Board of Supervisors adopt the 3.3% increase to the established impact fees as proposed therein; and

WHEREAS, on November 10, 2020, the Board of Supervisors adopted the requested 3.3% increase by Resolution No. 166-2020; and

WHEREAS, on February 11, 2021, the District adopted Resolution No. 2021-02, adopting an increase to the fees of 2.0%, based on the change in the Consumer Price Index for calendar year 2020, and requesting the Board of Supervisors adopt the 2.0% increase to the established impact fees as proposed therein; and

WHEREAS, notice of this hearing was published in the *Mountain Democrat* on March 26, 2021 and April 2, 2021 in accordance with Section 66018 of the Mitigation Fee Act; and

NOW, THEREFORE, BE IT RESOLVED, pursuant to Government Code Section 66001, the Board of Supervisors has reviewed the proposed fee increase and makes the following findings:

- A. The purpose of these fees is to finance public facilities and equipment to mitigate the impact of new development on parks and recreation services within the District.

- B. As found in Resolution No. 135-2018, the fees collected pursuant to this Resolution shall be used to finance the facilities and equipment as described and identified in the Report, provided that any expenditure will be reimbursed only if the District submits adequate supporting information to show that there is a reasonable relationship between the use of the fee and the type of development project for which the fee was imposed, including the percentage of the development project funded from the fee, and a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed.
- C. Upon consideration of the Report and testimony received at the July 17, 2018 hearing, the Board approved the Report in Resolution No. 135-2018, incorporating such therein by reference, and further found that new development within the boundaries of the District will generate an additional need for parks and recreation equipment and facilities and will contribute to the degradation of current services within the area.
- D. As found in Resolution No. 135-2018, the facts and evidence presented in the fee nexus study established a reasonable relationship between the need for the improvements and the impact of the development for which the fee is charged, and a corresponding relationship between the fee's use and the type of development for which the fee is charged, as these reasonable relationships are described in more detail in the Report.
- E. As found in Resolution No. 135-2018, the cost estimates set forth in the Report are reasonable cost estimates for constructing these facilities or acquiring the equipment needed and the fees expected to be generated by new development will not exceed the total of these costs, and the Board further finds that these costs increase relative to the increased costs of construction and equipment due to inflation.
- F. As stated in the Report, the fee is subject to adjustment by the percentage change in the Consumer Price Index and that utilization of the inflationary index for one fiscal year (July 2020 to July 2021) produces a fee that maintains a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed while accounting for increased costs of construction and equipment due to inflation.
