Vegetation Management Program
www.edcgov.us/Government/CAO/VegetationManagement

Dear Property Owner,

Thank you for working with our defensible space inspection team to address the requirements of the El Dorado County Vegetation Management and Defensible Space Ordinance #5101, Chapter 8.09.

It has been determined that your property is near compliance with the ordinance requirements making your property eligible to participate in the El Dorado County Vegetation Management Self-Certification Program. Once you have completed work identified on the inspection checklist provided by the El Dorado County Defensible Space Inspectors, complete the self-certification form and upload relevant photos demonstrating completion of the work.

Visit www.edcgov.us/Government/CAO/VegetationManagement/Pages/Defensible-Space-Inspections.aspx to complete the Defensible Space Self-Certification form. A paper copy of the self-certification form will be available upon request.

Participation in this program is voluntary. All properties that participate in the El Dorado County Defensible Space Self-Certification Program are subject to a verification inspection.

Thank you for your efforts to keep your property, community, and El Dorado County fire safe.

Sincerely,

El Dorado County Vegetation Management Program Team
