Mosquito Road Bridge at South Fork American River Project Update October 2017

El Dorado County's Department of Transportation is performing geotechnical exploration and drilling between September 11, 2017 and November 10, 2017. Geotechnical drilling equipment will be in the Mosquito-Swansboro Community, along with a helicopter, for accessing the future pier locations. The information discovered during this work will be used in the current preliminary structural foundation design and future final design for the proposed new bridge.

The Project CEQA document was approved by the Board of Supervisors and recorded on August 9, 2017 and NEPA was approved by Caltrans on September 5, 2017.

The County sincerely appreciates the cooperation and patience of motorists that use this roadway and we apologize for any inconvenience as a result of these activities. Please refer to this website for updated information and schedule changes as it becomes available.

For questions regarding this project, please contact the Transportation main line at (530) 621-5900.
