Subject: Hearing for Parcel Map Time Extension P-E20-0001/Rossbach

To: planning@edcgov.us <planning@edcgov.us>

To Whom it May Concern,

We apologize for the tardiness of this letter. While we hope that it will find the correct person before the hearing on September 16, 2020, we understand that it may not.

We are writing in regards to the time extension requested by Gerald Rossbach and Randal Reading regarding Tentative Parcel Map P-E20-0001/Rossbach. This process has been going on for a number of years and we are in a constant state of wondering what may be happening next, if anything at all. There is maintenance that needs to be done on both the paved and gravel portion of the road and we have not felt that we can plan this. We have not wanted to invest the money in the sealing the pavement or replacing gravel if in the next week or month they are going to start work on the property and thereby ripping up the asphalt and grading over the gravel. We feel that waiting on the unknown for the next 4 years is a lot to ask. We don't want the property to be split, but have not stood in the way. We bought our home almost 9 years ago with the way the properties are now. Rural living and not being penned in by houses is what we love about where we live.

In conclusion, we ask you to think about the points made above. We don't believe that this process should be placed in a "maybe" status for the foreseeable future.

Thank you for your time and consideration,
Robert and Cynthia St.Pierre
