- EP3 Draft Policy update - Stanton
- Provide a list of businesses & schools participating in organics recycling – England
- Next meeting: Monday, May 8, 2017

Open Forum – Items for Discussion

- Adjournment

EDSWAC' Operation Guidelines:

- Use data to monitor the status of existing diversion practices/strategies, and to identify and recommend the next best steps to further increase diversion up to 75%. Data to be used in this process include: **a)** strategies identified in the Solid Waste Management Plan; **b)** annual Source Reduction Report organized by Paris codes; **c)** construction and demolition (C&D) diversion for appropriate building permits and percentage of C&D tons diverted; and **d)** quarterly jurisdiction reports on diversion.
- Identify opportunities and strategies for increasing public participation and education about reducing, reusing, recycling and recovering materials to reduce the waste stream entering material recovery facilities.
- Seek out and review strategies for waste diversion used successfully by other jurisdictions.
