

- Provide information that can identify necessary course adjustments or modifications to the General Plan as a means to improve local implementation;
- Provide a clear correlation between land use decisions that have been made during the 12-month reporting period and the goals, policies, and implementation measures contained in the general plan; and
- Provide information regarding local agency progress in meeting its share of regional housing needs and local efforts to remove governmental constraints to the development of housing (as defined in §65584 and §65583(c) (3)).

Periodical review and monitoring of General Plan implementation helps ensure that it remains a viable foundation to direct the long term physical development of the County and to ensure that it continues to reflect current conditions. It is the County's intent to ensure that the General Plan directs all land use decisions and remains an effective guide for future development.

**RECOMMENDATION:**

Receive and file and forward to the Board of Supervisors for consideration.

**NEXT STEPS:**

Planning Services will continue to provide the State Office of Planning and Research and the State Department of Housing and Community Development annual reports on or before April 1 of each year. In addition, Planning Services will continue to provide quarterly updates to the Planning Commission on progress toward implementing the General Plan.
