

## Identification of Existing Code Problems

<b>55.</b>	<b>17.25 Flood damage prevention ordinance</b>	<b>Need to bring ordinance up to current FEMA regulations.</b> <b>Pools have not been addressed in this section:</b> <b>Contamination, inundation, and water pressure causing the pool to pop out of the ground should be issues.</b> <b>Substantial Improvement documentation is modeled on FEMA standards, but could be codified or more formally reviewed and implemented.</b>
