RE: Continuance of Project S08-0018 Hearing Date

Dear Mr. Dougherty,

It recently was conveyed to me that one of ComSites West's consultants had a scheduling conflict and will not be able to make the 10-14 hearing date. On October 6th I sent you a letter requesting a continuance to the first hearing date in November, which is November 14th. Two days after that letter I was informed that another one of ComSites West's consultants had a conflict with the November 14th date. After checking once again with all of ComSites West's consultants I would like to respectfully request the hearing date be rescheduled one last time to the December 9th hearing date.

On behalf of ComSites West I would like to apologize for this delay. ComSites West believes this project meets the County of El Dorado telecommunication guidelines and is anxious to have this project heard and approved by the El Dorado County Planning Commission. All of ComSites West's consultants must be in attendance to ensure all of the Commission's and the public's questions and concerns are answered and addressed correctly.

Once again, ComSites West respectfully requests Project S08-0018 be continued to the first available hearing date in December. If you have any questions please contact me at 916/826-4232, or via email at Timothy@sitecomwireless.com.

On behalf of ComSites West, thank you for your time and cooperation.

Respectfully,

Timothy Miller
