AGENDA ADDENDUM

**Regular Meeting
October 14, 2010 – 8:30 A.M.**

9:00 A.M.

12. ORDINANCE

OR10-0002/Wind Energy Conversion Systems initiated by EL DORADO COUNTY. Proposed amendment to County Ordinance, Title 17, to add provisions for wind energy conversion systems to comply with California Government Code Section 65893 which encourages local agencies to adopt zoning standards that enable construction of small wind energy conversion systems for on-site home, farm, and small commercial use. The intent is to provide standards and regulations for the safe and effective construction and use of these systems, as well as for larger, utility-scale systems that can potentially be developed within the County, based on the State Energy Commission's *Wind Resource Potential Maps*. [Project Planner: Lillian MacLeod] (Negative Declaration prepared)* [continued from 9/9/10 & 9/23/10 meetings]

Staff Recommendation: Recommend approval to the Board of Supervisors

Respectfully submitted,
ROGER P. TROUT, Director
Development Services

All persons interested are invited to attend and be heard or to write their comments to the Planning Commission. If you challenge the application in court, you may be limited to raising only those items you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the Commission at, or prior to, the public hearing. Any written correspondence should be directed to County of El Dorado Planning Services; 2850 Fairlane Court; Placerville, CA 95667 or via e-mail: planning@edcgov.us.

*A negative declaration has been prepared for this project and may be reviewed and/or obtained in County of El Dorado Planning Services, 2850 Fairlane Court, Placerville, CA 95667, during normal business hours or online at www.edcgov.us/Planning/ProjectInquiry.asp. A negative declaration is a document filed to satisfy CEQA (California Environmental Quality Act). This document states that

there are no significant environmental effects resulting from the project, or that conditions have been proposed which would mitigate or reduce potential negative effects to an insignificant level.
