Item 10 – December 9, 2010

Dear Mel,

Please accept this letter as a request to continue the mentioned item off-calendar,

We are currently examining the ability to construct this project in 2011 and for marketing reasons it may be necessary to modify the preliminary footprints, which may in turn require development standards different than those requested to date.

Thank you for your patience while we re-assess the project details. Andrea or I will be in touch with you when we are ready to re-schedule the public hearing.

Best Regards,

Kirk Bone
Director of Government Affairs
