**RE: REQUEST FOR PLANNING COMMISSION CONTINUANCE -TILDEN PARK  
PLANNED DEVELOPMENT & TENTATIVE MAP**

Dear Ms. Purvines:

We have been pursuing discussions with the immediate neighbors and their representative Mr. John Olson. As well we have been investigating questions brought up at the Planning Commission Hearing so that we may better be prepared with the appropriate responses. All of this is taking more time than we would like. With appreciation for this process and with respect to some of the letters from the opposition that were sent to the Planning Commission we request a continuance to a future hearing date of the Planning Commission. As you know we were scheduled to come back before the Planning Commission on December 8, 2011. With the holidays upon us, and the difficulty of getting all of the discussions accomplished, we request a date of February 9, 2012 which might work better for all concerned parties.

Thank you for your consideration in advance. Please let me know if this continuance can be granted without the need to physically show up and make the request in December.

Sincerely,

Gary Davis P.E.
